## **PROFESSIONAL SUMMARY**

Reliable full stack software engineer with interest in product development that successfully handles fast-paced coding work. Proven willingness to take on any task to support the team and help business succeed. Offers strong React Native, Node, and Express abilities for delivering mobile products.

## **SKILLS**

React Native, JavaScript, React.js, jQuery, JSON, APIs, Ruby, Ruby on Rails, HTML5, CSS3, SASS, Bootstrap, Styled-Components, Materialize, Material-UI, Trello, Heroku, PostgreSQL, Postman, Express, Node.js, MongoDB, Mongoose, Git, GitHub, Microsoft Office (Word, Excel, PowerPoint, etc.)

## **SOFTWARE ENGINEERING PROJECT EXPERIENCE**

Lead Dev/Project Manager - SAC (Mobile App)

May 2021 - June 2021

- Overseeing and helping teach my roommate as he builds his first React Native application- Stage Auto Center (SAC)
  - a 'check-in' application for the mechanic shop he works at.
- Demonstrating best practices for a variety of things such as; navigation, styling, action sheets, & more.
- Implementation of backend, using MongoDB for the database, to store vehicle info for users.

Full Stack Developer - AutoTek (Mobile App)

May 2021 - June 2021

- Developed a full-stack vehicle diagnostic application using React Native, Node.JS, and Express.JS.
- Leveraged MaterialUI for styling utilizing modern software development design guidelines and supporting the user experience.

Full Stack Developer - Hang Loose (Mobile App)

January 2021 - February 2021

- Developed first mobile application, based on a previous web project 'Hang Loose', allowing users to CRUD hammocking locations they enjoy.
- Implemented Google Maps API as well as Open Weather API.
- Showcased the effectiveness of pairing React Native with the Expo CLI

Project Manager - Morementum

December 2020 - January '21

- Ruby + Ruby on Rails based application, clone of the Chrome extension 'Momentum'
- Served a Ruby back-end with a React front-end, utilizing REST routes.
- Applied CSS using Bootstrap to result in a polished final product.

## **ADDITIONAL EXPERIENCE**

Lead Front-End Mobile Developer - Hutsy (Canada (remote))

January 2022 – Current

- Developing a fully functional banking application in React Native, using clean code principles.
- Integrated recoil and context for state management.
- Diagnosed and corrected errors in software code during development.
- Refined skill in React Native in a 100% remote setting

## **EDUCATION**

**General Assembly** - Software Engineering Immersive Certificate

January 2021

- Specialized training in React.JS, Node.JS, Express.JS, Ruby, Ruby on rails, MongoDB, PostgreSQL

**Udemy**

Feb-May 2021

- React Native Full-Stack Course
  - 22 Hours - Four applications ranging from basic to full-stack resulting in an application using OAuth.
- React.js Full-Stack Course
  - 40 hours - One full-stack application utilizing React, Express, Router, Hooks, and more.
